Vigyan Bhawan Maulana Azad road, New Delhi-110001

A WORLD RECORD 23 YEARS PERFORMANCE CERTIFICATE

Tele: 25693678
NIC Mail: embshsp4-mes@nic.in

Military Engineer Services
Garrison Engineer (E/M)
Base Hospital
Delhi Cantt-10

8001/Gen/ 187E8

17 Jan 2022

PERFORMANCE REPORT

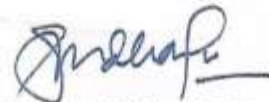

It is certified that **AQUA SHIELDS** have executed a waterproofing job for roof of buildings VIP Ward, T-12 at Base Hospital in 1999, as applicator/ manufacturer for Waterproofing using 'Supreme Aqua Shields', **AQUAVENT** and other products.

The performance of the same is Satisfactory, as no major leakage and seepage is observed/ reported till date.

This certificate is issued on request of Mr. Ajaya Kumar Harit, Director Aayka Waterproofers Pvt Ltd. The principle franchise of "AQUA SHIELD" B-63 2nd Floor, Ardee City, Sector-52, Gurugram, Haryana – 122002.

And issuing this certificate to them is without any obligations.

(Sudhanshu Mishra, IDSE)
EE (SG)
GE (E/M) Base Hospital

Its REDRESSAL With specific reference to LEAKING

RCC / Non RCC. structures:

- ❖ OVERHEAD TANKS AND UNDERGROUND TANKS(RCC/NON-RCC)
- ❖ METRO STATIONS, TUNNELS , BASEMENTS
- ❖ SUNKEN SLABS
- ❖ RISING DAMPNESS
- ❖ [A] DPC FAILURE
- ❖ [B] COLUMNS/WALL/floor of BASEMENTS.
- ❖ [C] SUNKEN SLABS
- ❖ CHAJJAS/PORCHES:
- ❖ ROOFS

WHY ?

1. Life of RCC. Structures reducing since 1980, despite the use of modern products, technologies, waterproofing and rehabilitation products.
2. Absence of ENGINEERING in WATERPROOFING and REHABILITATION protocols.
3. HIGH MOISTURE CONTENT in structures not being noticed so far.
4. MOISTURE CONTENT not a parameter being considered before issuing FINAL COMPLETION CERTIFICATE of building by competent Authorities.
5. Licensing of contractors in
 - I. PLUMBING
 - II. ELECTRICAL
 - III. WATERPROOFING
 - IV. REHABILITATION not adopted yet in India, although Practiced worldwide.

FACT STATEMENT: “*Entrapped Dampness more than 3 months is like a cancer for RCC, as corrodes the steel of RCC. On corrosion, steel expands & disintegrates the RCC Thus, reducing its life span from 100 years in 1980 to 50-40....*”

INTRODUCTION :

The construction industry is encountering the biggest challenge of EARLY DISTRESS of

RCC. structures caused by onset of its CORROSION leading to reduction of AUL [Actual Usage/service Life].

The situation is grave, as, we are declaring even a 5-15 years building UNSAFE in some cases.[MSC]

The causes of CORROSION [Chloride attack /Carbonation] have been studied & debated , at large, since long ,

with a very limited success in containing it on ground.

This paper shares an insight into the real problem-

THE ROOT CAUSE & its REDRESSAL using a technology TESTED for 23 years

TANK,

A BIG SECURITY CONCERN

The development of CRACKS in a LOAD BEARING structures due to CORROSION [as in multistoried HOUSING SOCIETIES] is CRITICAL and the major disaster ,in an eventuality of a MAJOR EARTHQUAKE seems inevitable.

This needs a national awareness campaign and a ANTI DAMPNESS DRIVE .

A MANDATORY STRUCTURAL AUDIT is also need of the hour,as, it involves the LIFE of a large population.

SIGNIFICANCE:

1. The Concrete cover of ceiling of the top floor of almost all buildings constructed

20 – 30 years ago is under Distress / Rejection of concrete cover due to corrosion of steel.

2. Almost every Structures have damp walls, molds since centuries.

3. Almost all Damp structure {i.e. more than 20% moisture content}.....leading to efflorescence peeling paints early distress.....rehabilitation costs

IMPACT:

- 1. Reduces life of Structures.***
- 2. Adds to the Expenditure on early Rehabilitation.***
- 3. Risk of Life, as load bearing columns in multi-storeyed building in extreme distress.***
- 4 Diseases like infections, asthmas, allergies, depression etc. by molds etc.***
- 5. DRAIN of resources on reduction of life / repair of structural.***

ACTION PLAN:

1. Declare **#Entrapped Dampness** as a “**Nationality Emergency**”.
2. National awareness like COVID etc campaign on **Entrapped Dampness**.
3. **Law** on Anti dampness in three years to achieve dampness below 20% after three months of constructions.
4. Stop demolition of buildings for want of expensive/uneconomical structural repairs, as, now **#WARET 1996** gives you a budget <20% of market value of structure.
- 5 .Adopt **#WARET 1996** for all tunnels, basements, underground structures and make them good for another lifetime centuries.
6. **TRIPARTITE GUARANTEE’S** for Waterproofing & Rehabilitation by **manufacture, applicator** and main contractor.
7. **De-saturate** and restore your buildings and **extend life of structures up to 100 years plus**.

OUR **GIVE** to THE INDUSTRY

RAISING the BAR of **WATERPROOFING** by
#without dismantling

And 20 years PLUS GUARANTEE[23 Years already DOCUMENTED] and
REHABILITATION with up to 30 years **ADDITIONAL AUL**
[Actual Usable Life] confirming to the IS:CODE adopted in construction.

- 1. Increase of AUL (Actual usable life) of structures by 20 years initially to 30years+*
- 2. Creation of national wealth in access of 1000's of Crores .*
- 3. The largest/biggest reducers of carbon footprint in construction industry.*
- 4. Increase in life of tunnels and underground structures to centuries.*
- 5. Elimination of the IET (Infrastructure engineering terrorism).*

Our **ASK** from the INDUSTRY

STRUCTURES with

- ☐ **EXTREME** DISTRESS
- ☐ LEAKING for **DECADES**
- ☐ ABONDENED for WANT of **ECONOMICAL REPAIRS**
- ☐ **GUARANTEE** by MANUFACTURERS
- ☐ **DECLARE #ENTRAPPED DAMPNESS “A NATIONAL EMERGENCY”** like POLIO ,CORONA.....

My technical Mentor
Prof. SK Agarwal
EX- HEAD: STRUCTURAL CIVIL ENGINEERING
IIT ROORKEE

A state of art Bridge designed by my Technical MENTOR

Professor. SUSHIL KUMAR AGARWAL ,Ex-Head Structures Civil Engineering, IIT Roorkee.

Dobra Chanti Vehicular Suspension Bridge Upstream of **Tehri Dam on Char Dham Yatra Route.**

FACT STATEMENT

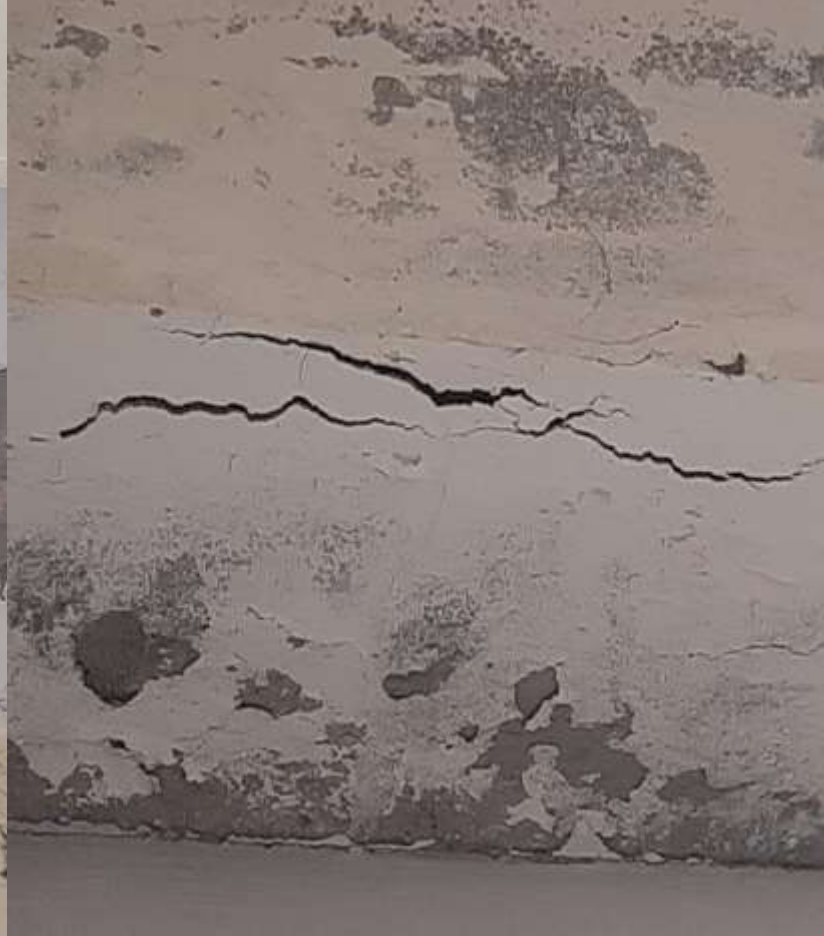

“ #*Entrapped Dampness* more than 3 months is like a Cancer for RCC, as, it corrodes the steel of RCC. On corrosion , steel expands & disintegrates the RCC thus, reducing its life span from 100 years in 1980 to 50-40... to even 5 years now.”

FACT:

The entrapped moisture referred above, between the RCC. Slab and tiles, supplies continuous moisture 24/7/365 to the adjacent RCC. members.

These gradually absorb moisture and provide an ideal condition for rusting of steel of RCC. members. The steel on OXIDISING/rusting –expands many times its volume and leads to development of extreme internal stresses which lead to rejection of concrete cover of RCC. This leads to an overall corrosion and eventual spalling /rejection of concrete cover of RCC. at large number of places.

This phenomenon reduces the AUL [ACTUAL USABLE LIFE] of structures.

SOURCES of DAMPNESS:

- 1. WET SUNKEN SLABS*
- 2. WET ROOFS (Failed Waterproofing)*
- 3. RISING DAMPNESS (DPC failures /
Plastering of PLINTH BEAMS)*
- 4. Seepage from Sub – soil etc.*

REASON: “The #**Entrapped Dampness** is absorbed by the floor & RCC over the time and initiates capillary action. This, if unattended, leads to the onset of Corrosion of the Steel of RCC #**Entrapped Dampness** is a Critical aspect Neglected / Lack of Awareness & Solutions, in general all over. This is the main reason for all around Distress of RCC. **The entrapped moisture in the above, between the RCC Slab and PCC etc. Supplies continuous moisture 24x7x365 to the Slab & adjacent RCC Members.** These gradually absorb moisture and provide ideal conditions for rusting of steel of RCC Members. **This is accelerated by 100% carbon fiber wrapping / guniting etc.** The Steel on rusting – expands many times its volume and lead to development of extreme internal stresses which lead to rejection of concrete cover of RCC. This has led to an overall corrosion and eventual spalling / rejection of concrete cover of RCC all over.”

2. ROOFS: Leakages from Overflow of water tanks, rainwater

[Cracks development due to UPTHrust of #ENTRAPPED DAMPNESS]

High Moisture content 34% against 12-14%-A big concern

The #ENTRAPPED DAMPNESS is a CRITICAL aspect overlooked by the maintenance ground staff in general ALL OVER.

This is the MAIN reason for ALL AROUND DISTRESS of RCC.

This has become an EPIDEMIC and NO respite in sight.

The BIS and other engineering authorities, therefore, chose to reduce the LIFE of structures from 100+ years in 1980's to 50 years now

We are now ready to help the nation to create an Enormous wealth by extending the LIFE of STRUCTURES upto 100 + years.

#ENTRAPPED WATER between RCC. roof and top tiles etc

TRANSMISSION:

ABSORPTION, DIFFUSION of ENTRAPPED DAMPNESS.

Corrosion onsets after 3 to 5 years continuous ENTRAPPED dampness.

Once corrosion onsets -the steel members expand and reject the concrete cover .

This creates cracks initially and these cracks create a constant supply of all needed for acceleration of corrosion process.

The cracks gradually expand and concrete cover starts disintegrating there by leading to EARLY distress.

IMPLICATION:

IMPACT of #ENTRAPPED dampness on

- LIFE of structures Further REDUCTION of LIFE further from 50 to 40,30,20....years
- Health of residents.

RISING DAMPNESS /DPC failures and other dampness leads to growth of MOULDS etc. and are reasons for :

- 40% ASTHMA inflammation
- Depression
- Sneezing

This needs a national awareness campaign.

SAVINGS

Nation/Clients will save

DIRECTLY: More than Rs.1000 Crore annually by adopting/

#Without Dismantling PROTOCOL :

WA-RET1996 - Waterproofing, Rehabilitation, Engineering & Technology REVOLUTION.

INDIRECTLY:

Crores of Rupees in next 15-20 Years

.....on account of # INCREASE of ACTUAL USABLE LIFE (AUL) of structures.

OBSERVATION

The author has been researching on the NON-STRUCTURAL cracks , their development/redevelopment, causes of development and the role of ENTRAPPED MOISTURE and with specific reference to:

1.SUNKEN SLABS : Leakages from traps, joints and cracks of sewerage CI /plastic pipes & water pipes ,fittings, flooring /wall tiles.

ICICI BANK- NBCC PLACE opposite SAI MANDIR, Lodhi road, New Delhi.

A 10 years problem solved for LIFE(TEN years)a double (-2 Level) BASEMENT leaking for 10+ years and attempted by many agencies, now WATERPROOFED, REHABILITATED and #ENTRAPPED DAMPNESS MANAGEMENT done .Time :20DaysProducts:DR.MIRACLE grouts and rehabilitation aids Methodology: 3 stage injection (Patent process IP) grouting protocol.

DMRC

CASE STUDIES

LAUNCHING SHAFT NO. 1 Vikas Puri, New Delhi (2019)
Challenge

Year 2019: Restoration of LAUNCHING SHAFT No.1,Vikaspuri,New Delhi ,DMRC.
Challenge: Burst of sump at (-18 M) with daily discharge of & gt;600 CUM water.
The concrete elements Raft at sump washed away and no reinforcement. The contractor struggled unsuccessfully for 2 years.

Done by TEAM AAYKA in 34 days using DR.MIRACLE systems.

BEFORE

AFTER

DMRC

CASE STUDIES

HAJRAT NIZAMUDDIN METRO STATION, New Delhi
Challenge

Year 2018: DMRC. HAZRAT NIZAMUDDIN METRO STATION- BLANKET AUGMENTATION /waterproofing of 1400Sq.m.400-1200mm thick M40 RCC. 'D'WALL of metro station. 25 odd agencies struggled unsuccessfully for 2 years. Done by TEAM AAYKA in 14 days using DR. MIRACLE systems. Challenge: Thousands of pinhole leakages, which could not be PU /Others .

BEFORE

AFTER

SOLUTIONS

A National awareness on #ENTRAPPED DAMPNESS & acceptance of this as an EPIDEMIC of building.

Setting a PLAN/task force for attaining a time bound NO-DAMPNESS STATUS .

A LAW on ANTI-DAMPNESS is the only solution, where the dampness creator should be penalized

SOLUTIONS

MOTIVATION/NEGATIVE MOTIVATION for creating DRY/DAMP structures.

A LAW on ANTI-DAMPNESS is the only solution, where the dampness creator should be penalized

INSERTION of ANTICORROSSIVE CEMENTICIOUS GROUTS by INJECTION GROUTING & replacement of #ENTRAPPED WATER with LOW DENSITY GROUTS for better insulation and removing #ENTRAPPED

SOLUTIONS

WATERPROOFING AFTER DESIGN CORRECTION.

Chocked Pipe

The main reason for Leakages

Cleared

Box Gratings

NEVER BLOCKAGE guarantee,
even if not cleaned

SOLUTIONS

AQUAVENTS-moisture release systems

protocol for damp walls & roofs

Wall Models of AQUAVENTS-moisture release systems

THE ROOT CAUSE of DAMPNESS:

With respect to **FAILED** waterproofing/plumbing

- 1.NO ACCOUNTABILITY of builders , contractors, engineers....
2. No SIGNIFANCE of GUARANTEE BONDS of performance...
- 3.Unhealthy competition [**upto -40%** under quoted tenders]
- 4.No STANDARDISATION of DETAILING/SPECIFICATIONS.
5. No MOTIVATION or NEGATIVE MOTIVATION

SAVINGs By WARET1996

1. COST : >50%
2. TIME : >90%
3. INCONVENIENCE to USERS : MINIMAL
4. PRO GREEN ,as, negligible DUST , SOUND POLLUTION & debris
5. WORKABILITY in MONSOONS
6. GUARANTEE , as, we are working on already stabilized CRACKS.

NEED OF THE HOUR : POLICY FROM GOVERNMENT

1. WaterProofing /Performance **GUARANTEES** implementation in Letter & Spirit.
2. **Licensing of Plumbing & waterproofing contractors** by IBC after approval by government of a **MANDATORY** requirement of working by Licensed persons only.
3. Issue of only **PROVISIONAL completion certificate** on completion of a building and **FINAL** completion certificate only after achievement of successful **3 years NO DISTRESS & ZERO DAMPNESS STATUS**.

This shall create a seriousness in construction standards - plumbing , waterproofing etc.

CONCLUSION:

ERADICATION of DAMPNESS by

*CREATING AWARENESS of #WITHOUT DISMANTLING PROCEDURE OPTIONS available now.

*CREATING a national consensus on A LAW on ANTI-DAMPNESS

[An Online PETITION already created]

*CREATING a POLICY on WATERPROOFING & REHABILITATION.

This exercise can create an enormous wealth [on principle of ELCTRICITY SAVED –ELECTRICITY PRODUCED]
for the NATION in next 10 years

.....creating A SELF SUFFICIENT BHARAT.

PERFORMANCE REPORT

1. It is certified that AAYKA WATERPROOFERS PVT LTD have successfully completed a work of Waterproofing of a leaking underground shooting range at NSG, as a manufacturer for M/s RAJ KUMAR SINGLA A-277, Meera Bagh Paschim Vihar New Delhi 110087, using their products DR. MIRACLE GROUTS etc. The performance is satisfactory till date as no LEAKAGE/SEEPAGE is observed during the 1 (one) year. Their understanding of problems solutions and professional conduct are good.

(Kamal Kumar)
Sqn Cdr (Engg)
HQ NSG

JAI JAI RAM SINGH INFRASTRUTURE PVT. LTD.

TO WHOMSOEVER IT MAY CONCERN

It is certified that M/S AAYKA WATERPROOFERS PVT LTD has executed the waterproofing work as WORK ORDER NO. JRSIPL/IIT-DELHI/2021/04/02. DATED: 07.04.2021 for construction of PEB/ light gauge steel structure over existing building at IIT Delhi campus.

USING MATERIAL

1. DR. MIRACLE WAC IMPREGRATION
2. AQUA COAT POLYMERS BITUMEN EMULSION
3. AQUA CRAFT PAPER.

The work has been done using their PATENTED products {Awarded} & Patented {submitted}.

The performance of the above works done is satisfactory, as, no leakage/ seepage till date.

This certificate is issued on request & without any financial obligation and does not absolve the firm of their committed obligations.

For JAI JAI RAM SINGH INFRASTRUCTURE PVT. LTD.

Authorized Signatory.
